water, and medicines, including a "first aid to the injured" outfit. They will camp on the ground in order to get away first thing in the morning provided today's search should fail to prove successful.

Will Probe Blind Valleys.

The party left this morning at nine o'clock and intends to cover every bit of the ground. Special attention will be devoted to the blind valleys into which the lost ones may have strayed and have been unable to climb out again.

Rowland B. Cross, who, in company with Miss Larrabee, was originally with the lost instructors but returned Saturday night, made up a party and has returned over the ground with the intention of following the exact trail over which the original party went.

Four narrow valleys run down to the sea within a close distance of the district in which the search is being carried on, and in these valleys are a series of blind-leads into which it is easy to clamber but next to impossible to climb out of. Ferns, bushes, rotting stumps, which give way at a touch and slimy rocks upon which it is next to impossible to gain a foothold, adds to the difficulty of making any progress.

The several search parties are now engaged in searching these ridges and valleys and are attempting to do it in

With Cross went A. T. Wisdom of the Young Men's Christian Association and three other men, all of whom are familiar with the ground to be traversed.

A. T. Wisdom believes one of the party must have fallen and got hurt and that the others are staying with the injured one, for he declares it next to impossible to lose the bearings entirely in the Kaipapau region, Walls Form, Polesons.

"I have been over the region several times myself," said Wisdom this morning. "All through the district are a series of hillocks from which the pedestrian can easily see the ocean. But there are also a series of palis which form the walls of natural prisons and if a person should fall into one of these rocky dungeons, he might experience some trouble in getting out again.

"Frequent rains have rotted the stones, many of the trees are dead but being covered with moss, are deceptive looking.

ADD FEAR MOST.

In trying to climb out, one of the party probably grasped one of these rocks or trees and consequently fell back over the precipice. If they are weakened by hunger and thirst, it would be harder than ever for them to escape from such a predicament.

Miss Frances Bosher of Kawaiahae Seminary and a friend of the lost instructors joined a search party yesterday evening and has declared her intention to prosecute the search until she finds her missing friends.

With Miss Bosher went Dr. Doremus Scudder, J. P. Cooke and a party of Japanese plantation laborers who made up the original search party last Saturday evening. Every two hours Miss Bosher telephones Kawaiahae Seminary in regard to progress made by the searchers, but so far the reports have been ever the same—no trace.

Citizens Are Anxious.

Hundreds in the city here are interested in regard to the outcome of the search, and on every street corner is gathered an anxious group of citizens discussing the fate of the wanderers.

The five persons in the party—Glenn Shaw, John Nelson, Harold Robinson, Mrs. Mary Stambaugh and Miss Henry—have all been here for some time and have a large circle of friends and acquaintances.

Miss Stambaugh has been a teacher at Kawaiahae Seminary for the past two years, coming here last April from the Coast, where she was engaged in the same kind of work.

Miss Ruth Henry has been holding the chair of mathematics at the seminary for the past year. Her home is in Amherst, Mass., where she attended the public schools and later graduated from Smith College. She came to Honolulu last fall.

Glenn W. Shaw is a former resident of Denver, Colo., and came here two years ago to teach English at Mills School.

Harold Robinson is a graduate of Dartmouth College and has been teaching at Mills school for two years.

Japanese Planter Lost.

While the many searching parties are tirelessly forging their way through thickets and brambles, over rocks, and under low-hanging branches in an effort to locate the lost teachers, a party of forty Japanese laborers from Waimanalo plantation is scouring the country between Waimanalo and Kailua in an effort to locate a Japanese banana planter named Yamura Tokiuchi, who has been lost in the forests somewhere between Waimanalo and Kailua since June 13.

Tokiuchi, who was unmarried and 26 years of age, was invited to attend a gathering to be given by one of his friends at Waimanalo plantation on Sunday, June 13. Tokiuchi's banana plantation is at Kailua and is five miles by the road from Waimanalo, so Tokiuchi decided to take a short cut. He struck out through the woods and that was the last ever heard from him.

When he did not arrive, his friends decided to go and bring him, but on arrival at Tokiuchi's plantation, he could not be found.

Friends Find No Trace.

Nothing was thought of it until the next day when the Japanese still being missing, it was decided to look for him, and a party of fourteen started through the woods to look for him. No trace or clew was found anywhere.

The party of fourteen has since been augmented to forty and the search is still being prosecuted. The matter was reported to the police this morning, but nothing can be done until the other search is completed.

Several weeks before this a Japanese newspaper man was lost somewhere behind Tantalus and nothing was ever heard from him.

On account of the recent disappearance, plans of the newly-formed Y. M. C. A. hiking club have been temporarily abandoned and all excursions called off for the time being.

The club was to have made a trip up Tantalus the coming Saturday, but the organizers of the club have joined a search party now seeking the five instructors.

SAYS LOST TEACHERS
WILL SUFFER FROM COLD

"The lost teachers will not suffer from heat or lack of water so much as from cold," said a Honolulu man today who returned last night from Hauula and is familiar with the country now being searched for the missing men and women.

"The elevation where they are probably wandering is fifteen hundred or two thousand feet and they will suffer severely. There ought to be plenty of water in the streams and I doubt if they will be troubled by mosquitoes so high up, but the country is terribly rough. It is as broken as a crumpled pocket handkerchief, and very hard to traverse.

COLORADO OFFICER
BUYS KAIMUKI LOTS

Naval officers are not slacking interest in Kaimuki. An officer of the Colorado yesterday bought lots in block 102, Ocean View, of the Kaimuki Land Company.

The purchase has nothing to do with the hui of naval officers, some of whom since the Colorado's arrival have in full for their former purchases Kaimuki lots.

RUMOR IS GIVEN
FLAT DENIAL BY KUHIO

Correspondence, Star-Bulletin, July 1.—In a letter received by Stephen Desha, Prince Kuhio, that the published news of King's Daughters' Home being given on the Young roof garden the night of July 4, in honor of the visiting yachtsmen.

Arrangements for the decorations, music and refreshments have been completed and the affair is destined to be the social event of the season. Tickets for the dance are being disposed of rapidly, it appearing that there is a general desire on the part of the public not only to greet the visitors but to help the Hawaii Yacht Club in raising funds with which to entertain the guests from the mainland. The entire net receipts from the Indoor Yacht Club dance will be

COLORADO NEEDED;
CAN'T STAY FOR FOURTH

Shortly before the cruiser Colorado sailed for Bremerton today the Chamber of Commerce received a cablegram from Washington refusing the request that the warship be permitted to remain here over July 4. The cable is as follows:

"Chamber of Commerce, Honolulu. 'Regret that necessity for return of Colorado prevents permitting ship to remain in Honolulu over July 4. BEEKMAN WINTHROP, Assistant Secretary of the Navy.'"

The newspaper strike in Chicago was broken by the action of the retypers, who asked for their old jobs, under the old conditions.
